

# APPLICATION NOTE 11

## 3 SERIES SENSOR - MOUNTING NOSE

A diffusion mounting assembly, the 'nose' adaptor, has been designed for convenient mounting in a wide range of weatherproof housings. Moulded in resilient polyester, the nose adaptor requires a 25mm diameter hole in the outside wall of the housing to allow installation. A bonded membrane and mesh is employed to prevent the ingress of dirt and dust particles into the sensor.

The Mounting Nose also fits the push-in zero/calibration 'plug' (part no. 2112BB017-L5, calibration plug).

Mounting Nose Kit - Part no: 2112BB020-L5
